

Extra Update:

Since 2000, I have been at Miracle Mountain Ranch and it has been a completely life changing experience for me. When I left Virginia and headed north to Pennsylvania, I was young, idealistic, single, and completely clueless what God had in store for me.

The ministry of Miracle Mountain Ranch (MMR) and mentors along the way changed me forever. Opportunities to share my testimony became regular opportunities to speak. Being a disciple has become an opportunity to disciple others as well. Being a new in my local community has become a chance to serve with my local church and fire department. Singleness has changed to become a wonderful marriage to Tonya, the addition of little George and another baby on the way. I was changed here, not because it is the only place to change, but because God chose to use this place and these people to mold me.

A decade at Miracle Mountain Ranch was, I thought, out of the question because I couldn't see staying a year when I first came. But God has extended that vision, and I am thrilled about the opportunities that are on the horizon. The work is so enjoyable and the opportunities are so abundant.

During my time serving with the Sermon on the Mount ministry at MMR, I started to learn more and more about media. Producing DVD programs, brochures, websites, products, and flyers were greatly needed, so I learned the trade. Over the years I have spent most of my time in the Marketing and Media areas of the ministry. Marketing has always been a part of my life, and now God has made it my career. God has also brought people into my life that helped develop this skill. Specifically, Caleb Pike has been one of these mentors and friends in the work. Together we started the first Media Summit at MMR and hosted media professionals to learn skills and how to glorify God through media.

This has started to open a growing interest in the ministry of media at MMR. The MMR School of Discipleship added a Media Minor to the program. This year many students are interested in this small part of the program. I am really excited about these developments. I love marketing and media and would love to see any program that would teach people to glorify God through these skills.

I am hoping to develop a sustainable team of media professionals and students that can help the ministry of Miracle Mountain Ranch with its media needs. And I hope that we can help encourage a new type of media and marketing professionals that are determined to glorify God through this trade whether in vocational ministry or

secular ministry. Jacob Mozeika has joined the MMR staff team to work for me in this area. Together we are able to design, build, and distribute a new level of media tools.

Tonya has also entered this realm of interest with photography and helped to host the Media Summit this year. Because of this interest, she is developing a skill, learning what she can from practice and friends of the ministry. It is fun to share another area of interest and work together.

There is a lot of work to do in this area. We have launched a new website with over 100 pages and it is a lot to keep updated. We also need to develop media classes, create a Ranch brochure, promo booth, three major newsletters, and go to conferences all across the United States to share about the Ranch. With thousands of people regularly visiting the website and looking for media, we have lots of work. Looking to the future, I would love to be apart of some short film projects and other new media forms over the next several years. We will have to trust the Lord for His direction in these things.

At the same time we will continue to disciple our students, Tonya will serve as Matt Cox's assistant, and the many other Ranch responsibilities. Thank you for your support and fellowship. Without the help of others this would not be possible. If we can be of any help or encouragement to you, please let us know. We are looking for opportunities to share what the Lord is doing here and in our lives. Please pray for us as we serve and learn to raise a young family. We are excited about the new year of opportunity.

May God Bless You!

Donnie Rosie
